Daniel DeLayo

Fourth-Year Computer Science Ph.D. Student

ddelayo@cs.stonybrook.edu danieldelayo.github.io orcid.org/0000-0001-7636-0107

Employment History

2019 – **Research Assistant,** Stony Brook University, *Computer Science.*

2021 – 2024 **Intern,** Sandia National Labs, *Cyber Security & Analytics*.

2018 – 2018 **Research Assistant,** Stony Brook University, *Physics*.

Education

2021 – **Ph.D. Student, Computer Science,** Stony Brook University.
Research Interests: *Parallel Algorithms, Cache and Memory Management, Theory & Practice*
Advisor: *Michael A. Bender*

2017 – 2021 **B.S. Computer Science,** Stony Brook University.
Honors: *Summa Cum Laude, Honors College, Honors Computer Science*.
GPA: 3.95/4.0

Research Interests

My work straddles theory and practice; I solve hard theoretical problems and build state of the art parallel systems. I design efficient and practical parallel algorithms primarily through memory-based optimizations, whether it's memory movement in a cache or data contention in a parallel system. Through rigorous theoretical analysis and exhaustive performance engineering, I overcome these memory-based bottlenecks to produce high-performance and practical algorithms.
