🆔 orcid.org/0000-0001-7636-0107

Education

- 2021 – Present 📖 **Ph.D. Candidate, Computer Science**, Stony Brook University.
Research Interests: *Parallel Algorithms, Cache and Memory Management, Theory & Practice*
Advisor: *Michael A. Bender*
- 2017 – 2021 📖 **B.S. Computer Science**, Stony Brook University.
Honors: *Summa Cum Laude, Honors College, Honors Computer Science*.
GPA: 3.95/4.0

Employment History

- 2019 – Present 📖 **Research Assistant**, Stony Brook University, *Computer Science*.
- 2021 – 2024 📖 **Intern**, Sandia National Labs, *Cyber Security Algorithms Research*.
- 2018 – 2018 📖 **Research Assistant**, Stony Brook University, *Physics*.

Research Summary

My research focuses on how memory movement and contention limit performance, and on algorithms that overcome those limits. I develop parallel algorithms and space-efficient data structures that combine provable guarantees with high-performance implementations.

In caching, I study miss-ratio curves, caches with limited associativity, and caches with changing capacity. Miss-ratio curves were long considered too expensive to compute in production systems. As part of my MongoDB PhD Fellowship, I am integrating my algorithm into MongoDB, where it computes them with negligible overhead.

Beyond caching, I work on problems whose performance is dominated by memory movement: determinacy race detection in parallel programs, linear sketching for massive, dense graphs, and compact filters.

Software

- 2023 – Present  **Increment-and-Freeze**, fast parallel LRU hit-rate curve computation; being integrated into WiredTiger and OpenCilk.
github.com/etwest/Increment-and-Freeze
- 2025  **CUPCaKE**, parallel sketch-based dynamic connectivity for massive, dense graphs.
github.com/etwest/DynamicQueriesCC
- 2024  **Landscape**, distributed linear sketching for graph connectivity and k -edge connectivity.
github.com/GraphStreamingProject/Landscape
- 2022  **GraphZeppelin**, graph streaming library for connected components via linear sketching.
github.com/GraphStreamingProject/GraphZeppelin
-  **GutterTree (pipeline hypertree)**, parallel buffer-tree variant for batching graph-stream updates.
github.com/GraphStreamingProject/GutterTree

Awards

- 2026  **MongoDB PhD Fellowship**.
 **HALG Invited Talk**, Don’t Melt Your Cache: Low-Associativity with Heat-Sink.
- 2025  **SPAA Distinguished Paper Award**, Don’t Melt Your Cache: Low-Associativity with Heat-Sink.
- 2024 – 2025  **NSF Student Travel Grant**, Symposium on Parallelism in Algorithms and Architectures (SPAA).
- 2023  **CLSAC Invited Student Poster**, Chesapeake Large-Scale Analytics Conference.
- 2022  **GAANN Fellowship**, Stony Brook University.

Talks and Presentations

- 2026  **HALG (Invited)**, Don't Melt Your Cache: Low-Associativity with Heat-Sink.
-  **MAPSP**, Don't Melt Your Cache: Low-Associativity with Heat-Sink.
-  **MongoDB (PhD Fellowship)**, Increment-and-Freeze: LRU Miss-Ratio Curves for Every Cache, Everywhere, All of the Time.
- 2025  **SPAA**, Don't Melt Your Cache: Low-Associativity with Heat-Sink.
-  **NYU Theory Seminar**, Increment-and-Freeze: Every Cache, Everywhere, All of the Time.
-  **PhD Dissertation Proposal**, Practical Sequential and Parallel Paging via LRU Miss Ratio Curves.
- 2024  **PhD Prelim**, Increment-and-Freeze: Every Cache, Everywhere, All of the Time.
- 2023  **CLSAC**, Stateful Streaming with External Memory On Workstations.
- 2022  **SPAA**, Automatic HBM Management: Models and Algorithms.
-  **MAPSP**, Automatic HBM Management: Models and Algorithms.

Teaching Experience

- 2025  **Distributed Systems**, Teaching Assistant.
-  **Honors Algorithms**, Probability Lecture.
- 2023  **Graduate System Security**, Teaching Assistant.
- 2021  **Honors Algorithms**, Teaching Assistant.
- 2018  **Intro to Computer Science**, Teaching Assistant.

Professional Service

- 2026  **Shadow Program Committee**, SPAA.
-  **Artifact Evaluation Committee**, ALENEX.
- 2025  **Shadow Program Committee**, SPAA.
-  **Artifact Evaluation Committee**, ALENEX.
- 2024  **Artifact Evaluation Committee**, ALENEX.
- 2023  **Peer Review**, ESA.
- 2022  **Peer Review**, IPDPS.
